

Purpose →

New Directions Information Center is a consumer operated information service that will assist individuals as they begin their journey through the Dane County Mental Health and/or Substance Abuse systems.

Mission ←

New Directions Information Center exists to facilitate community partnerships and provide quality choices for those seeking information about mental health/substance abuse services.

Individuals with personal experiences with mental health/substance abuse issues distribute information in a respectful, recovery-oriented manner.

Education and resources join together to foster an environment of hope.

New Directions Information Center is a program of the Mental Health Center of Dane County, Inc.
